

UNITY VIA OFFICEPRO LENSES

Unity® Via OfficePro puts the advanced technology of Unity Via Progressives into a workplace lens. This gives you an **easy to fit, customize, and dispense** lens that offers your patients exceptional visual performance and comfort.

EASY TO FIT

Unity Via OfficePro **calculates the near and intermediate zones** for you. This ensures the monitor stays in the visual sweet spot without any extra measuring on your part.

EASY TO CUSTOMIZE

A streamlined portfolio optimized for the most common workplace viewing distances makes it easy to meet every patient's needs.

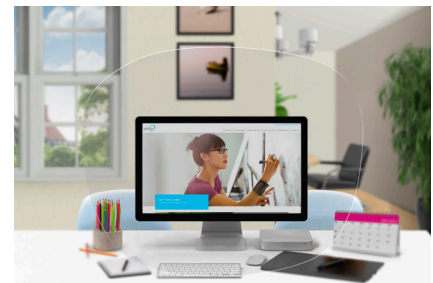

5 ft. – Ideal for cubicle or small office with more close tasks

10 ft. – Perfect for open spaces that require a greater field of vision.

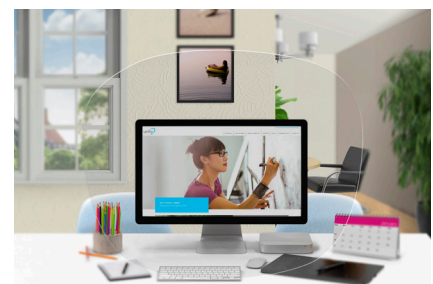

EFFORTLESS VISION IN THE WORKPLACE

Fast adaptation offers your patients immediate benefits, so they can get down to business the second they get to work.

- Reduced visual strain and fatigue
- Improved clarity on digital displays
- Easy intermediate–near zone shift
- Improved ergonomic comfort

Clear Vision up to 5 ft.

Clear Vision up to 10 ft.

INTELLIGENT TECHNOLOGY

Unity Via OfficePro Built-In Technology

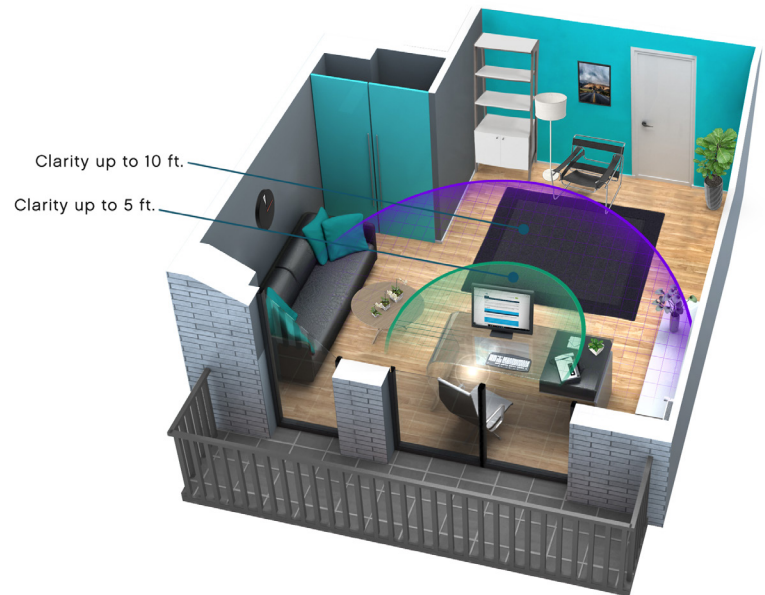

Technology	Benefit
PostureFIT Technology	Cutting-edge technology that optimizes ergonomics and comfort for the wearer regardless of add power.
Digital Viewpoint Technology	Optimized prescription at every point of the lens with minimized peripheral distortion.
Variable Inset	Larger usable reading area.

SIMPLIFIED CUSTOMIZATION

Two working distances make it easy to match lens choice with specific patient needs:

5 ft. – Computer work, desk work, reading, writing, etc.

10 ft. – Computer work, inventory, visitor reception, meetings, etc.
